1. Scope of Services

The Service Provider agrees to deliver the following services to you. Each deliverable is described below.

Deliverable	Unit Price	Total
01 — Service Video Production — ~90-Second Horizontal Format (16:9) <i>Scripted, clone-driven production of one (1) service video of approximately ninety (90) seconds in horizontal 16:9 format, built from your own photographs, recorded voice, and approved script. Production begins with a storyboard — a scene-by-scene visual plan of the video — delivered to you as the first-round review, so the creative direction is approved before video production begins. Includes creation of your digital clone from the high-definition photographs you provide; animation synchronized to your recorded voice-over; supporting visuals featuring your practice, office, and team imagery where provided; on-screen text and captions; licensed background music; branded intro and outro; and color-graded final editing. Optimized for Meta (Facebook and Instagram) feed placement and equally suited to your practice website and other marketing channels. One video is produced per featured service (e.g., Invisalign, veneers, implants, braces, and any additional services you select); the final list of services is confirmed with you in writing before production begins.</i>	\$750 per video	1
02 — Vertical Short-Form Edit — ~30-Second Version (9:16) <i>An iteration of the corresponding approved 90-second horizontal video — not a new production. The approved master is re-edited into an approximately thirty (30) second vertical 9:16 version optimized for Meta Reels and Stories placements: reframed for vertical viewing, re-timed around an attention-grabbing opening hook, tightened in pacing, and finished with mobile-legible captions. Because each vertical edit is derived from its approved horizontal master, it is produced after you have approved the corresponding 90-second version.</i>	\$250 per video	
03 — AI Visibility Guidance — ChatGPT, Gemini, Grok & Perplexity <i>A practice-specific program to help your practice appear and be recommended across AI platforms including ChatGPT, Gemini, Grok, and Perplexity. Includes a baseline visibility audit documenting how your practice currently appears (or does not appear) on all four platforms for relevant patient searches; a written, prioritized action plan covering Google Business Profile optimization, review-platform and directory presence (e.g., Yelp, Healthgrades), consistent business listings, and website content structured for AI citation (FAQ-style service pages and dentist-specific schema markup); a one-on-one walkthrough call to review the plan together; and a follow-up visibility re-check approximately sixty to ninety (60–90) days later to measure movement.</i>	\$950	
04 — Claude Consulting Session — One-on-One Hour <i>A private, one (1) hour consulting session to get you set up and comfortable using Claude and Claude Code. Includes account setup guidance, an orientation to the interface, and hands-on practice with workflows that can save you 20–30% of your time on administrative tasks — plus an introduction to Claude Code and practical tips for building the tools into a weekly routine. A written quick-start reference summarizing what was covered is provided after the session.</i>	\$450	1
	+ \$150.00 cloning	1
TOTAL		\$1,350

Note on video pricing — priced per video, not as a package: The video rates above are per-video rates. You anticipate approximately five (5) featured services (e.g., Invisalign, veneers, implants, and braces, plus any additional services you select). The final list of services — and

therefore the total number of 90-second and 30-second videos — will be confirmed with you in writing before production begins and billed at the per-video rates above. The AI Visibility Guidance and Claude Consulting Session are fixed-price items.

2. Payment

A deposit of fifty percent (50%) of the confirmed project total (based on the confirmed number of service videos plus the fixed-price items above) is due upon signing this Agreement. The remaining fifty percent (50%) is due upon completion and delivery of all deliverables, except the follow-up AI visibility re-check: because the re-check takes place approximately 60–90 days after the initial audit, final payment is not contingent on it and is due once all other deliverables have been completed and delivered. The re-check will still be performed in full as described in Section 1. Each payment is invoiced and due upon receipt. No production will commence prior to receipt of the deposit.

Payment Methods: Zelle: (310) 980-9378 or michaelrivera@gmail.com

Venmo: @MichaelRayRivera

PayPal: @MichaelRivera189

3. Materials You Provide

The quality of the finished videos depends directly on the quality of the source materials. Before production begins, you will provide the following:

- **Photography** — still photography only — no video footage is needed for clone production. Photo quality is the single most important factor in how lifelike your digital clone looks: the finished clone can only ever look as good as the photographs it is built from. Please provide high-definition still images of you from a full range of angles — straight-on, 45-degree on each side, both full profiles, and the back — taken in good natural lighting, so the clone animation stays natural as your head turns. The same complete set of angles is required for any staff member who will appear in the videos. Office and team photos you would like featured are welcome as well. If the photographs provided are not sufficient for quality clone production, an additional photo session can be arranged for a fee of \$150, which covers travel to your practice and execution of the photoshoot.
- **Voice recordings** — a recording of each service script read in your own voice, energy, and personality, captured with the best available equipment (DJI Mic preferred; iPhone Voice Memos at minimum). Each recording should reflect exactly how you want to sound in the finished video.
- **Written scripts** — the written script for each featured service, matching the voice recordings.
- **Logo and brand materials** — high-quality files of your practice logo (vector formats such as SVG, EPS, or AI preferred; a high-resolution PNG with transparent background at minimum), together with any existing brand materials — brand colors, fonts, or a style guide — so every deliverable stays consistent with your established brand. If no formal brand materials exist, the Service Provider will match the look and feel of your existing website and signage.

4. All Final Materials are Owned by You

Upon receipt of payment in full, all final materials created for you under this Agreement—including the service videos, vertical edits, and written guidance materials—become your sole property. The Service Provider retains the right to display the completed work in its portfolio and promotional materials. Any third-party assets (e.g., licensed music, fonts, or stock imagery) remain subject to their respective licenses.

5. Revisions & Production Timeline

- Each deliverable includes up to two (2) rounds of revisions at no additional charge. Additional revisions beyond the first two rounds are billed at **\$100 per hour**, invoiced separately and due upon receipt.
- Production will not begin on any deliverable until the deposit has been received and you have provided the required materials described in Section 3 — photographs, voice recordings, written scripts, and logo/brand files.
- Estimated turnaround after all required materials are received: the first 90-second service video, approximately 1–2 weeks; each additional 90-second service video, approximately 1 week; each 30-second vertical edit, approximately 2–3 business days following approval of its corresponding horizontal video; and the AI visibility audit and action plan, approximately 1–2 weeks. These timelines are estimates and may vary based on the timeliness of your feedback and materials delivery.
- The Service Provider will confirm scope, deliverables, and the production schedule with you before beginning work on each deliverable.

6. General Terms

- Entire Agreement: This document constitutes the entire agreement between the parties with respect to the services described herein and supersedes all prior discussions, proposals, or understandings.
- Amendments: Any changes to the scope, pricing, or terms of this agreement must be agreed upon in writing by both parties.
- Governing Law: This agreement shall be governed by the laws of the State of California.
- Limitation of Liability: Service Provider's total liability under this agreement shall not exceed the total fees paid by you under this agreement.
- Independent Contractor: The Service Provider operates as an independent contractor. Nothing in this agreement creates an employment, partnership, or joint venture relationship.
- Assignment: You may assign this Agreement, together with all rights and obligations under it, to a limited liability company or other entity formed by you, upon written notice to the Service Provider. No other assignment may be made by either party without the prior written consent of the other.

7. Signatures

By signing below, both parties agree to the terms and conditions outlined in this Service Agreement.
