1. Scope of Services

This Agreement covers one service: the AI Referral Optimization Program for Dental Arts San Diego. It is a standalone engagement — it does not depend on, alter, or duplicate any other work the Service Provider performs for you.

	Deliverable	Unit Price	Total
	AI Referral Optimization Program — ChatGPT · Gemini · Grok · Perplexity · Claude <i>A practice-specific program to make your practice appear, and be recommended, when patients ask AI assistants for a dentist. It runs in four phases — a baseline audit measuring exactly where you stand today, implementation of a twelve-point action plan, a one-on-one walkthrough call, and a re-check that measures the movement. Section 2 sets out every item included.</i>	\$950	\$950
	TOTAL		\$950

This program was previously described as "AI Visibility Guidance" (Deliverable 03) in the Service Agreement dated July 21, 2026, where it was listed but not selected at signing. This Agreement replaces that description in full and is the only document under which this program is charged. It is billed once, at \$950.

2. What the Program Includes

The program runs in four phases. Phase 1 is already complete and delivered. Phase 2 is the implementation work. Phase 3 is the review call, and Phase 4 is the measurement that proves what changed.

PHASE 1 — BASELINE AUDIT AND FINDINGS REPORT

STATUS: COMPLETE — DELIVERED AUGUST 2026

- 1.1 Twenty-two (22) real patient search questions asked on five (5) AI platforms — ChatGPT, Gemini, Grok, Perplexity, and Claude — producing 110 recorded answers.
- 1.2 An AI Referral Score from 0 to 100, calculated from four measured pillars: Discovery (40%), Reputation (25%), Website Readiness (20%), and Listing Consistency (15%). Your measured baseline is 36 of 100.
- 1.3 A competitor leaderboard naming which practices are winning your questions, and the published fact that wins each one.
- 1.4 A written findings report covering all of the above.

PHASE 2 — IMPLEMENTATION: THE TWELVE-POINT ACTION PLAN

The twelve items below are performed in the order listed, fastest and highest-impact first.

Quick wins

1. Publish the five languages your team speaks across your website, Google Business Profile, and the review and directory profiles the AI platforms actually cite.
2. Correct the patient-rating figure displayed on your website so that it matches the rating Google publishes.

3. Correct the incorrect telephone number carried on your WebMD and Vitals profiles.
4. Fill or remove the empty FAQ module on your website.
5. Publish an llms.txt AI-summary file at your domain root.

Core work

6. Update service pages for the five services currently invisible to AI platforms: Invisalign, sleep apnea, periodontal care, wisdom teeth, and a working All-on-4 page.
7. Add a patient comfort and dental-anxiety page.
8. Publish your new-patient and family offers as quotable page content.
9. Add FAQ content and machine-readable structured data (JSON-LD) across the site, covering your practice, services, hours, and languages.
10. Link your separate Google listings to one another as a single practice identity, keeping the specialist listings that currently win their categories.
11. Repair your sitemap and rewrite service copy in the plain, factual style AI assistants quote.

Ongoing

12. Strengthen your weaker review profiles — responses to older complaints, and a routing plan for new reviews.

PHASE 3 — ONE-ON-ONE WALKTHROUGH CALL

- 3.1 A private call reviewing the findings, your score, and the action plan together, so you understand what was found and why each fix matters. — (Conducted 8/17/26.)
- 3.2 Setup Claude to conduct a monthly AI referral optimization report during your Consulting Session — purchased separately under the Service Agreement dated July 21, 2026 — as one session, at no change to either price. This is offered for convenience; it does not reduce or replace either service.

PHASE 4 — RE-CHECK AND MEASURED BEFORE-AND-AFTER

SCHEDULED: 60 DAYS FROM COMPLETING OPTIMIZATION

- 4.1 The identical twenty-two questions re-run on the same five platforms, under the same conditions as the baseline.
- 4.2 An updated AI Referral Score and a side-by-side comparison against your baseline of 36, question by question.
- 4.3 If implementation finishes later than expected, a revised re-check date approximately sixty to ninety (60–90) days after completion is set in writing. The re-check is included in the fee and is performed in full either way.

3. Payment

The fee for this program is nine hundred fifty dollars (\$950.00), payable in full upon signing this Agreement. There is no deposit schedule and no further amount becomes due at any later stage: the walkthrough call and the 60-Day re-check are included in this fee and are performed in full at no additional charge.

Payment is invoiced and due upon receipt. Implementation work begins once payment and the access items in Section 4 have been received.

Payment Methods: Zelle: (310) 980-9378 or michaelrivera@gmail.com · Venmo: @MichaelRayRivera · PayPal: @MichaelRivera189

4. What You Provide

This program changes what is published about your practice, so it needs a small amount of access. Each item below is requested once, in writing.

- **Google Business Profile** — Manager-level access to your Google Business Profile (Profile → Settings → People and access), or written owner authorization for the recommended changes. A password is never requested and should never be sent.
- **Website access** — editor access to your website's content management system, or a written introduction to your current website provider authorizing the Service Provider to make the changes described in Section 2. Hosting or FTP credentials are not required.

- **Confirmation of practice facts** — written confirmation of the services your practice offers, the languages your team speaks, your appointment hours, insurance and payment options accepted, and any new-patient offer. Everything published is drawn from your written confirmation, so accuracy protects you as well as the result.
- **Review and directory profiles** — access or authorization for the listings identified in the audit that require correction — including the WebMD and Vitals profiles carrying an incorrect telephone number — together with confirmation of who currently manages your separate Google listings.
- **Approval of published copy** — written approval of new page content before it is published. The Service Provider will not publish claims about services, hours, credentials, or ratings that you have not confirmed.

Where any of the above is not granted, the corresponding work is delivered instead as ready-to-implement written specifications for your website provider or listing manager, and that item is considered complete on delivery of those specifications.

5. All Final Materials are Owned by You

Upon receipt of payment in full, all final materials created for you under this Agreement — including the findings report, the written action plan, all page and FAQ copy, the structured data markup, the llms.txt file, and the re-check report — become your sole property. You may use, modify, and publish them without restriction. The Service Provider retains the right to display completed work in its portfolio and marketing materials. Any third-party assets remain subject to their respective licenses and terms.

6. Timeline, Revisions & What Is Not Guaranteed

- **Start** — implementation begins on the later of (a) receipt of payment and the access items in Section 4, or (b) delivery of the video production and landing page work under the parties' separate production agreement, unless you and the Service Provider agree in writing to begin earlier. The baseline audit in Phase 1 is already complete either way.
- **Estimated turnaround** — quick wins (items 1–5), approximately 2 weeks after the required access is received; core work (items 6–11), approximately three to five (3–5) weeks; the re-check follows approximately 60 days after completion of optimization.
- **Revisions** — each written deliverable includes up to two (2) rounds of revisions at no additional charge. Additional revisions are billed at \$100 per hour, invoiced separately and due upon receipt.
- **What is not guaranteed** — ChatGPT, Gemini, Grok, Perplexity, Claude, and Google are independent third-party platforms that change how they retrieve, rank, and cite information without notice, and no one can control their output. This engagement delivers the audit, the written action plan, the implementation work described in Section 2, the walkthrough, and the follow-up measurement — it does not guarantee any particular ranking, placement, mention, patient volume, or revenue result.

7. General Terms

- **Entire Agreement:** This document constitutes the entire agreement between the parties with respect to the services described herein and supersedes all prior discussions, proposals, or understandings relating to those services, whether written or oral.
- **Amendments:** Any changes to the scope, pricing, or terms of this Agreement must be agreed upon in writing by both parties.
- **Governing Law:** This Agreement shall be governed by the laws of the State of California.
- **Limitation of Liability:** The Service Provider's total liability under this Agreement shall not exceed the total fees paid by you under this Agreement.
- **Independent Contractor:** The Service Provider operates as an independent contractor. Nothing in this Agreement creates an employment, partnership, or joint venture relationship.
- **Assignment:** You may assign this Agreement, together with all rights and obligations under it, to a limited liability company or other entity formed by you, upon written notice to the Service Provider.

8. Signatures

By signing below, both parties agree to the terms and conditions outlined in this Service Agreement.
